
A Special Feature:
Brief Information about *Srinivasa Ramanujan*

(A Great Indian Mathematician)

Full Name: Srinivasa Ramanujan Iyengar

Born on: December 22, 1887

Place of Birth: Erode, Tamil Nadu

Nationality: Indian

Father's name: K. Srinivasa Iyengar, Clerk in a Sari shop

Mother's name: Komalatammal, Housewife

Valuable contributions to Various fields:

Number Theory, Mathematical Analysis, Continued Fractions and Infinite Series etc.
Analysis, Continued Fractions and Infinite Series etc.

Research Advisors: G.H.Hardy and J.E.Littlewood

Scholars who influenced him: G.H.Hardy

College Education: Government Arts College, Pachaiyappa's College

Revolutionary Contributions:

Ramanujan Prime,
Ramanujan's Master Theorem,
Ramanujan Conjecture,
Ramanujan Theta Function,
Rogers–Ramanujan Identities,
Landau–Ramanujan Constant,
Ramanujan's Sum,
Ramanujan–Soldner Constant,
& Mock Theta Functions etc.

Life span: 32 years

Died on: April 26, 1920

Place of Death: Chetput, Madras
