A Special Feature:

Brief Information about *Joseph Fourier*

(A Great French Mathematician)

Full Name: Jean-Baptiste Joseph Fourier

*Born on***:** 21 March 1768

*Place of Birth***:** Auxerre, Paris

Nationality: French

*Valuable contributions to the fields***: Mathematics & Physics**

Education in the Colleges/Universities: École Normale

Revolutionary Contributions:

> **Fourier series ,**
>
> **Fourier transform,**
>
> **Fourier's law of conduction,**
>
> **Fourier–Motzkin elimination,**
>
> **Fourier analysis,**
>
> **Fourier–Deligne transform & Heat equation etc.**

Academic advisor: Joseph-Louis Lagrange

*His Famous Students***:**

Life span: 62 years

Died on: 16 May 1830

Place of Death: Paris, Kingdom of France
